Free Downloads available to Registered Subscription Members!

Web Design...

Instant Video Suite... This download is 47 MB big!

It contains EXTREME VALUE

-Use it and blow your sales through the roof!

Instant Video Streamer...

Instant Video Streamer is a windows desktop application that converts video files (.avi, .mpeg, etc) to flash video files (.flv), then creates the files necessary to stream them.

Instant Audio Streamer...

Instant Audio Streamer is a simple desktop application that works more or less like Instant Audio Creator, except that it works on the desktop and it does not have the capability of creating a membership site.

-Great for auction sites

-Great as a bonus for your products

-Great to bundle together with other products for sale!

Instant Audio Creator...

Instant Audio Creator allows you to offer your clients easy ability to put audio on their web sites.

Instant Video Creator...

Instant
Video Creator is a php/MySQL program that offers the ability to put streaming video on your web site by converting those big/heavy video files into flash video files, and generating the code necessary to stream them on.

Fly-in Ads Creator...

Fly-in

Ads creator creates almost ALL kinds of "fly-in ads" to suit different purposes, including attractive images.

You can specify to load the fly-in ad, every time, once every session, or just once.

Please note that most of the books are in PDF format. This means that you will need Adobe reader to read these books. If you don't already have it installed on your computer you can download it here. And don't worry it is free and very easy to use!

Once you have installed the reader all you need to do is right click on the book titles; and save them to your hard drive. Remember to name the files and store them somewhere that you can find them.

Many of the software and information products have been zipped with winzip as they contain several files including sales pages and graphics. You can download Winzip here.
